

JOIN US IN THE FIGHT AGAINST GLOBAL WARMING

JOIN THE FIGHT AGAINST GLOBAL WARMING: TAKE THE ENERGY STAR PLEDGE.

Post this checklist where it can be a daily reminder to save energy, save money, and help fight global warming with ENERGY STAR. Then go to energystar.gov/changetheworld and tell us the steps you plan to take.

AT HOME, I PLEDGE TO:

- Change a Light: Replace at least one light in my home with an ENERGY STAR qualified one. Buy ENERGY STAR qualified holiday lights.
- Choose ENERGY STAR qualified products: TV, DVD player, home theater in a box (sound system), clothes washer, dishwasher, refrigerator.
- Choose ENERGY STAR qualified equipment for my home office: computer, monitor, multi-function device, fax, ink-jet printer.
- Enable my ENERGY STAR computer and monitor to sleep while I'm away.
- Set or program my thermostat to save energy while I'm asleep or away from home.
- Have my heating and cooling equipment tuned-up by a professional and change my air filter.
- Seal obvious leaks and repair disconnections in my home's duct system.
- Seal my home's envelope (outer walls, ceiling, windows, doors, and floors) with caulk, spray foam, and weather stripping, and add insulation to the attic.

AT WORK, I PLEDGE TO:

- Use a power strip as a central turn off point for all my office equipment to completely disconnect from the power supply.
- Unplug electronics once they are charged.
- Keep air vents clear of paper, files, and office supplies.
- Create a Green Team with my co-workers to help build support for energy efficiency.
- Talk to my boss about earning EPA's ENERGY STAR for our building.

The U.S. Environmental Protection Agency encourages everyone to save money and fight global warming through energy-efficient products and practices. Learn more at energystar.gov.
